INTRODUCTION

BTF is a revolutionary blockchain-based social media platform designed to reward users for their time and engagement. It integrates affiliate marketing and MLM strategies to create a sustainable revenue model for everyday social media users.

OUR GOAL IS TO TRANSFORM PASSIVE SCROLLING INTO ACTIVE EARNING

LEGAL ENTITY DOCUMENTS

OUR VISION

To create the world's first user-centric, blockchain-powered social ecosystem where every interaction is rewarding and transparent

OUR MISSION

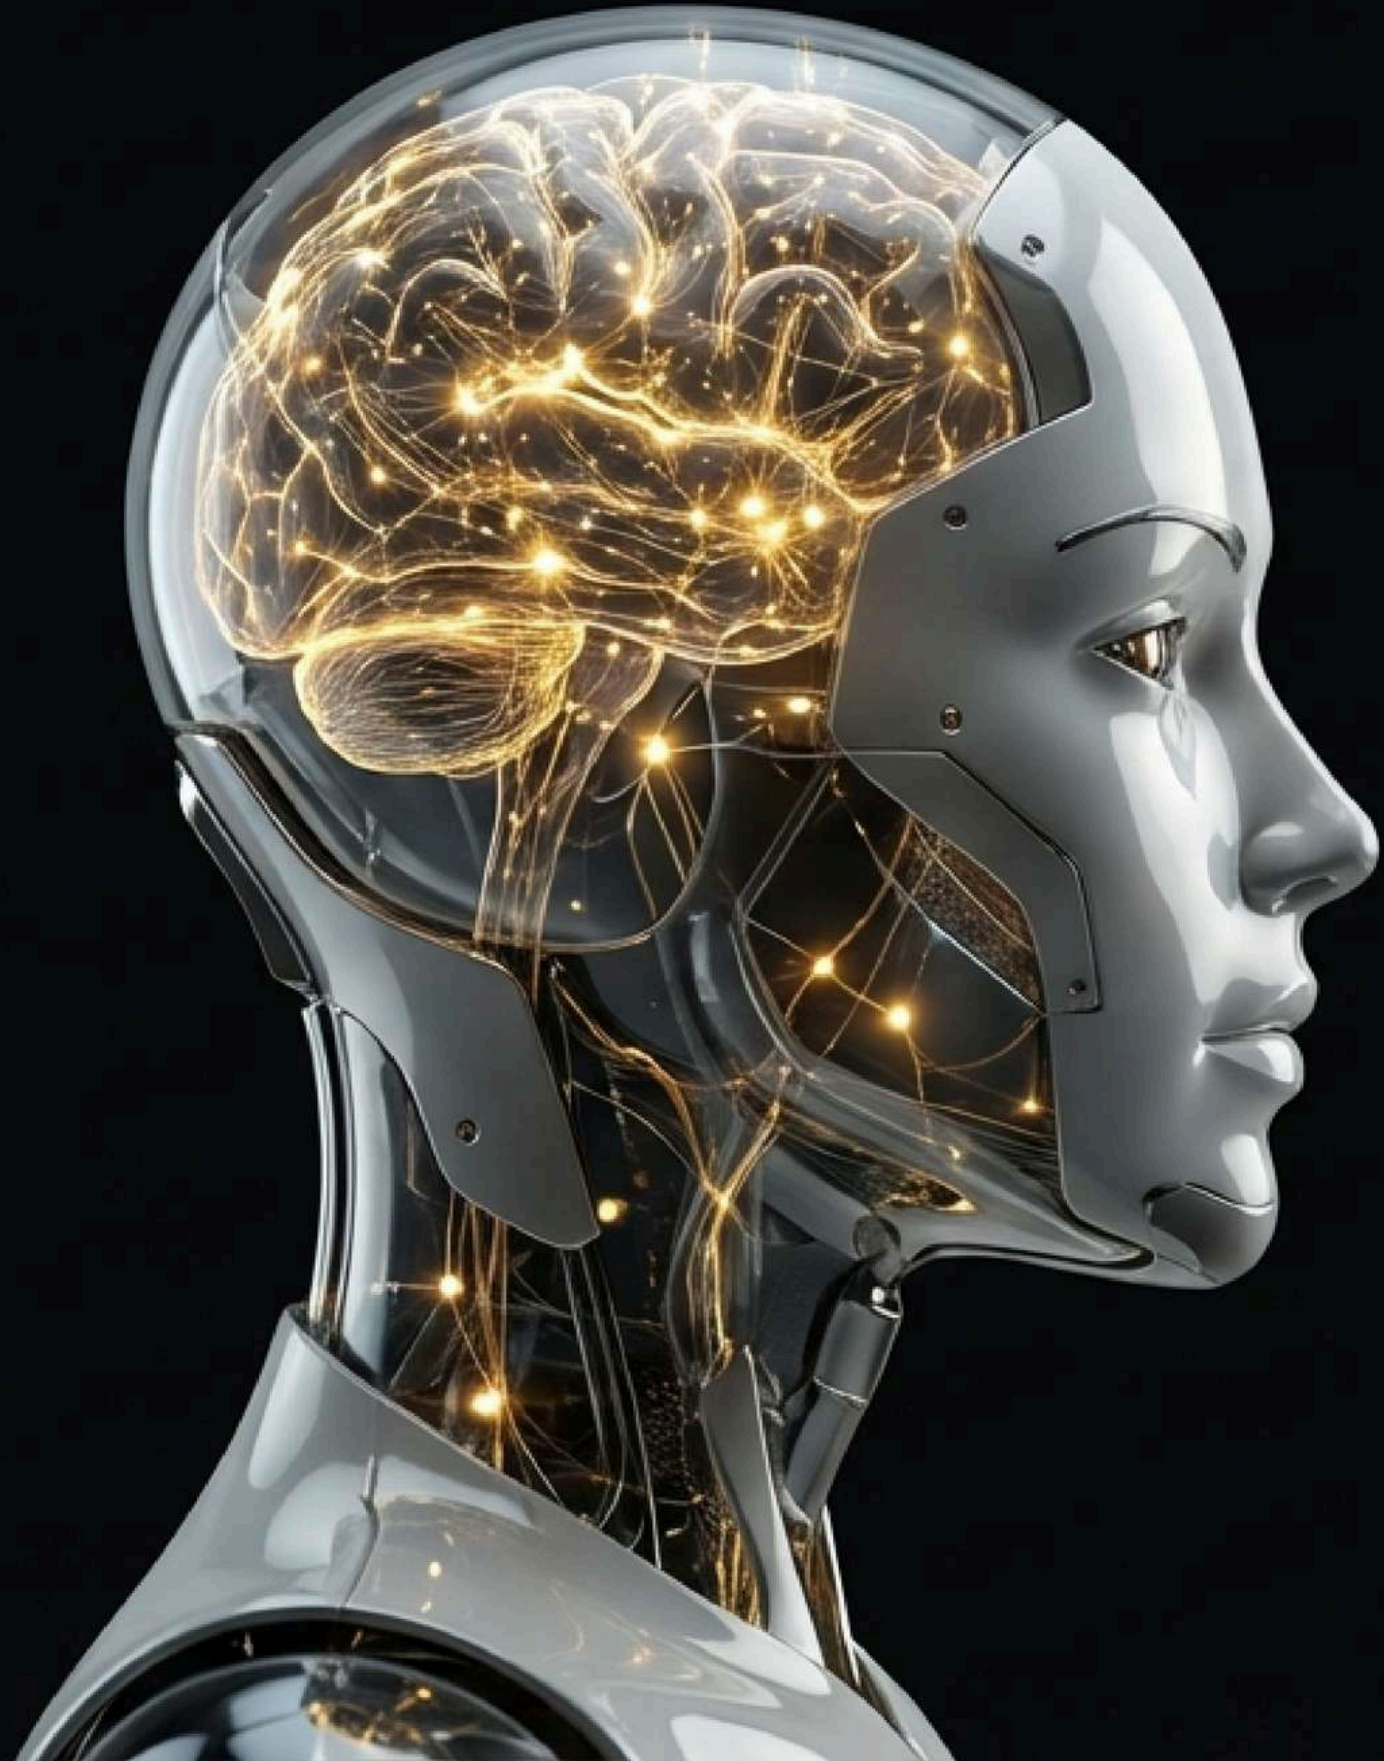

To empower individuals globally by monetizing their social media time through a secure, decentralized platform powered by our native token, BTF

ABOUT US

BTF is founded by a team of blockchain enthusiasts, social media experts, and fintech innovators. We identified a gap in the digital world users create value but don't share in the profits. Our solution is a seamless blend of social networking and decentralized finance.

THE ROLE OF AI IN BTF

AI enhances user experience by personalizing content, detecting fraud, and optimizing reward distribution. It ensures that engagement is genuine and rewards are fair, making the platform efficient and scalable.

FUTURE-READY BLOCKCHAIN

BTF is developing its dedicated blockchain to ensure speed, security, and scalability. Initially, BTF tokens will operate on BEP 20, migrating to our native chain once fully developed

BLOCKCHAIN BASED SOCIAL MEDIA PLATFORM

- A fully decentralized social network where data belongs to users, interactions are secure, and rewards are automatic
- No central authority, no hidden data selling just pure, value driven engagement

BTF TOKEN

BTF is the native utility token used for rewards, transactions, staking, and governance.

Initial launch on BEP 20 for crowdfunding, later migrating to our blockchain.

TOKENOMICS & BURNING MECHANISM

AFFILIATE SPILLOVER INCOME

Spillover happens when your sponsor's new members are automatically placed under you by the system. Even if you don't refer them directly, they become part of your team.

When these spillover members work or earn:
You get 3%,
Your sponsor gets 2%.
This continues to unlimited levels, helping you earn passively as your team grows.

That's spillover: earning from system support, not just personal referrals.
